

**Call to Develop Executive Projects for High Impact  
Mitigation of Greenhouse Gases (GHG) Emissions in Mexico  
Invite Experts and Consultants**

The Mexican Ministry of Economy (SE) and the National Council of Science and Technology (CONACYT), through their joint fund for innovation (FINNOVA) recently launched a Call to Develop Executive Projects for High Impact Mitigation of Greenhouse Gases (GHG) Emissions in Mexico.

This call is directed at organizations (public or private), businesses, institutions, research centers, business groups, integrated enterprises, non-government organizations (NGO's), chambers of commerce that are currently registered in the National Register of Scientific and Technological Firms and Institutions (RENIECYT). These parties must be interested in developing projects related to Nationally Appropriate Mitigation Actions (NAMAs) and submit proposals to develop executive projects for high impact mitigation of GHG emissions that are profitable and, that in addition to financing, require the elimination of barriers that limit their implementation.

Further information about this public tender may be found in the following link:

<http://www.economia.gob.mx/swb/work/models/economia/Resource/2/22/images/nama2309611.pdf>

The Ministry of Economy (SE) and CONACYT hereby invite all those institutions and individuals with experience in the provision of technical assistance in the development of executive projects for high impact mitigation of GHG emissions. The objective of this process is to inform potential beneficiaries of the program of possible suppliers of the afore-mentioned services. The SE and CONACYT only act as links and are not responsible for the information or the performance of participants.

Once the information is received, SE and CONACYT will distribute it among interested parties. It is important to note that it is the direct responsibility of the potential beneficiary to verify the veracity of the information provided by the consultants, as well as the quality of their work.

All those interested should send their institutional or individual resume, highlighting their experience in the subject, to: [ramon.scott@economia.gob.mx](mailto:ramon.scott@economia.gob.mx) and [hmiron@conacyt.mx](mailto:hmiron@conacyt.mx)
